New Traffic Pattern on 62nd Street North Coming Tuesday

Tampa, FL – Beginning Tuesday, September 26, motorists should expect a new traffic pattern on 62nd Street North between Broadway Avenue and 8th Avenue East in Tampa. This next phase will allow crews to continue performing roadway widening, drainage and sidewalk installation work along 62nd Street North.

All vehicles should continue exiting 62nd Street North via 8th Avenue East and 60th Street North. This new traffic pattern will continue through November 2023, weather permitting.

Electronic message boards and detour signs will assist motorists traveling through the area.

The Florida Department of Transportation's contractor, Watson Civil Construction, Inc., is improving 62nd Street North from Columbus Drive to the CSX Intermodal Center. Improvements include replacing the existing drainage ditch with a closed reinforced concrete pipe system, repaving the roadway, adding bike lanes, and installing sidewalks. Construction activities are expected to finish during the summer of 2024.
