Study Manager	Kara Van Etten 813-975-6057 Kara.VanEtten@dot.state.fl.us
Media Contact	Kris Carson 813-975-6060 Kristen.Carson@dot.state.fl.us

About

The Heights Mobility Study is an effort to improve safety and mobility within the Greater Seminole/Tampa Heights neighborhoods, primarily along the Florida Avenue and Tampa Street/Highland Avenue corridor between downtown Tampa and the Hillsborough River. Additionally, the Study team is working with the community to develop a longer-term transportation vision for the neighborhoods.

The Study is based on engaging the communities along the corridor in order to achieve the following objectives:

- Identify opportunities for actionable short-term safety and mobility improvements
- Develop a clear understanding of existing and future community character and develop mobility strategies to support the community needs.
- Build consensus around a Mission, Vision, and Goals for the Florida Avenue and Tampa Street/Highland Avenue corridor moving forward.

Dependent on the community’s vision, future Study phases may include engineering design, and ultimately a project for construction.
